ENGINE ROOM WITH LBW-420’S, DOOR MONITORS, & REMOTE ALARMS

Includes LBW-420 – 115VAC power, LBW-420-1 – 24VDC power and LBW-420-2 – 230VAC power

NOTE:
• You could need more than one leak detector in this room. It would be dependent upon engine room layout
• Exhaust could be one fan with variable speeds
• There may be a need for fresh air intake, this could also be controlled by the ammonia leak detection system
